

Keith Haring

5th grade, M.Jenny

In our English lessons we talk about “colours of art”.

We read the biography of Keith Haring. We began to describe and compare the paintings. The whole class likes his colourful pictures and his funny figures. Therefore every classmate chose a picture and described it with his own minds and ideas. (Andrea)

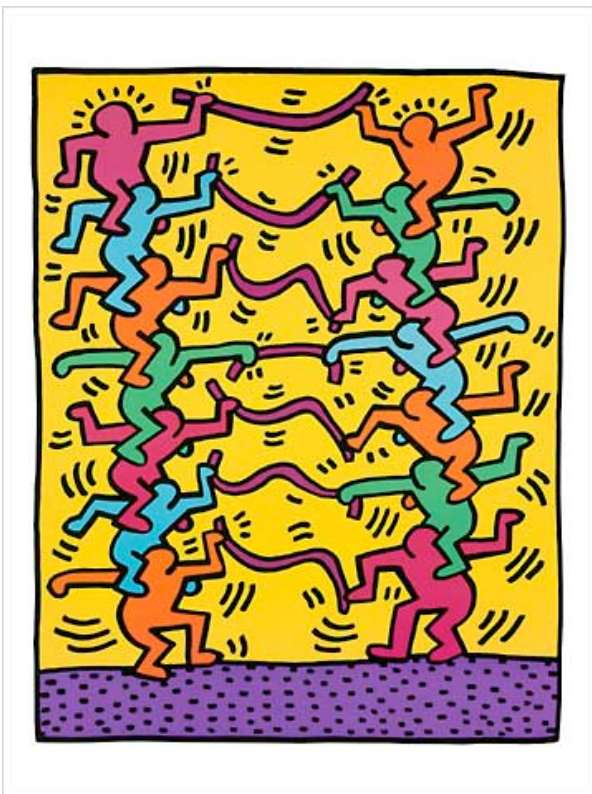

The picture I've chosen shows a skateboarder. The background is white. In the middle of the picture there is a child. He is painted in blue. And the child has a cross on the belly. The skateboard is red with yellow wheels. I like this picture because it means “sport is important”! (Yannick S.)

The picture I've chosen shows a circle. The picture is painted in blue and yellow. The background is light and dark blue. In the middle of the painting there are two figures and two dolphins. They are playing together in the sea. I like the picture because it looks very happy. I think the picture means that the people and the animals must hold together. (Elena)

The picture I've chosen shows teamwork. They're playing soccer. The red figure is bigger than the violet figure. I think they are happy. But on the other hand they're maybe fighting for the yellow ball. They are putting their arms in the air and I think they're shouting. I don't like the red one because he is bigger. I like the purple background because it calms down the regarding person. (Andrea)

The picture I've chosen shows a black ball with monkeys in it. The monkeys are playing a game. There is also a monkey baby. All monkeys are colourful and different. They are painted in blue, red green and yellow. I think it is a special symbol for fun. I like the picture because it is full of energy. (Simon)

In this picture figures. They are building a tower. For better results every pair is holding a rope. The ground is violet with black dots. The background is dark yellow. I like the figures because every figure is painted in a special colour. And that looks cool. I think the tower is not stable, an accident will happen. (Luca)

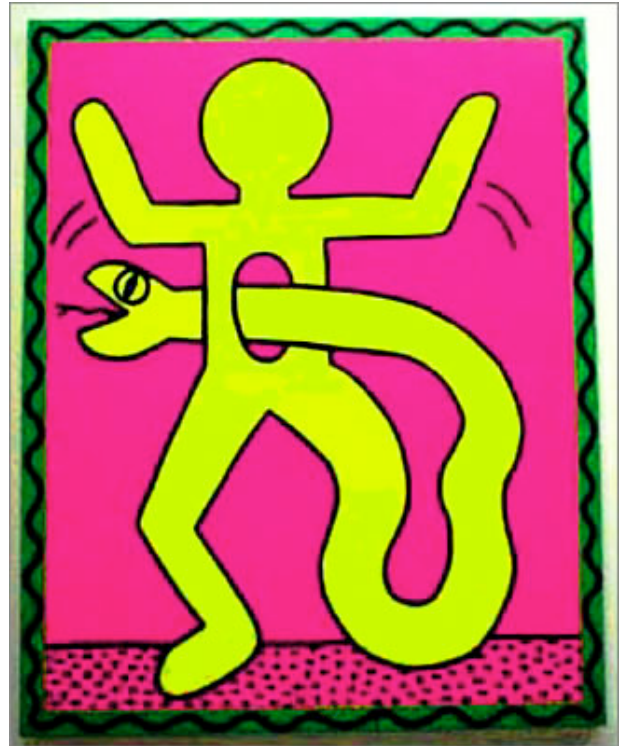

The picture is painted in blue, yellow green and red. In the picture you can see nine different figures. The background is grey. In the bottom left-hand corner there is a blue - red figure. And in the top left-hand corner I see a yellow and blue painted person with a nice pattern. The picture I've chosen shows a dancing party. I like the picture because I like dancing, too. (Jessica)

The painting I've chosen shows a green figure. The picture is painted in pink. I think the person is eating himself because one foot looks like a snake. It has already eaten a hole in the person's body.

There is also a frame painted in green and black.

I like this picture because the figure is eating his own body and he doesn't prefer ham. (Cyrill)

The picture is painted in yellow, orange, blue and green. In the middle of the picture I can see the earth. At the bottom of my picture I see two figures. The people are dancing. I think the picture means that the time is walking ahead. And we can't go back. I like this picture because it also shows teamwork. The two figures should work together. (Chantal)

The background is red. In the foreground there is a fish painted in violet. The fish is swimming in clean water. A yellow figure is riding on the back of the fish. I think the figure is hitting the animal. The fish is shouting for help. It is afraid of this human being. This is cruelty to animals, I don't like it. (Marco)
